

Practical **Innovation.**

ciber[®]

Companies and government organizations are challenged with not only doing more with less, but with delivering business results—better, faster, and cheaper. Gone are the days when aligning IT with the business was enough. Now integrated into every process, cubicle, and boardroom, IT is the engine that runs the business. Harnessing existing and emerging technologies to meet these new challenges, optimize business processes, and deliver tangible business value requires **Practical Innovation.**

About CIBER

- Founded in 1974
- Our first client is still our client
- \$1.1 billion in revenue: “Big enough to matter, small enough to care”
- NYSE: CBR
- 8,000 consultants in 80 offices, in 18 countries
- Named one of the Top Ten “Best Managed” Global Outsourcers¹
- Included on Gartner Magic Quadrants²
- Industry-leading client satisfaction³
- Expertise in application development, integration and management in both custom and ERP environments, with flexible, robust, and fully integrated infrastructure support options

Footnotes:

1. 2009, Black Book of Outsourcing, “State of the Outsourcing Industry Report – Best Managed Outsourcers”, Brown & Wilson.
2. Gartner Magic Quadrants (ERP, BIPM, Help Desk, Desk Top and Outsourcing).
3. Bi-annual survey conducted by independent research firm, Specifics, showed that 96% of respondents said they will use CIBER again, and 97% percent said they will unequivocally recommend CIBER to a colleague.

Practical Innovation Delivers Tangible Business Results

CIBER has been helping our clients since 1974, by passionately listening to your challenges, thoroughly understanding your goals, recommending the right solutions for your success, and delivering on our commitment—that’s practical. Applying creative thinking and accelerating speed to value—while keeping costs under control—that’s innovative.

CIBER’s experts take the practical—the sensible, the functional, the proven—and leverage the latest technology solutions to enhance your systems and processes. Combining the practical with the innovative is a unique and valuable proposition that communicates how we conduct business. How? With our emphasis on local accountability, you have a business-focused partner in your backyard, who cares about your success. **That’s practical.** Globally-delivered IT solutions and accelerators, built from experience, not from scratch. **That’s innovative.** Delivering fast, tangible business results. **That’s practical innovation. That’s CIBER.**

Practical Innovation at Work

CIBER helped **one of the largest U.S. power companies** with innovative programs for a Roadmap, Service Oriented Architecture (SOA), and Master Data Management in support of a SmartGrid initiative, which transforms analog power delivery into a digital network enabling the management of energy usage and cost savings, with a green frame of mind.

CIBER helped **a global leader in healthcare, lifestyle, and lighting products** with global sourcing of its application support services. CIBER developed an innovative roadmap strategy for off-shoring and provided the complete solution to take advantage of lower cost, higher quality, and enhanced technology services.

A western state turned to CIBER to help plan the statewide consolidation of 16 IT organizations. CIBER utilized a collaborative approach to create a Roadmap and an Enterprise Architecture and Governance framework for guidance, bringing divergent views into a cohesive consolidation plan that became legislation. The State has become a leader among State and Local governments for Shared Services Initiatives.

Needing to enhance the security and quality of its software products, **a multi-billion dollar medical information services company** hired CIBER, whose Application Risk Management Program provided innovative security at every stage of the software product life cycle and a new proof point for customers.

A national, non-profit organization, faced with losing control of its information on a privately-owned database, turned to CIBER to build and maintain its own database, and develop additional reporting and IT surveillance functionality that helps it sell services to supplement funding.

A global pharmaceutical leader utilized CIBER's innovative approach to improve its online business channel. The results were increased productivity and turn-around times. CIBER also provided testing coverage for the client's 75+ healthcare websites, reducing production defects and standardizing all online campaigns to ensure brand continuity.

A state's DOT asked CIBER to help administer projects more efficiently. CIBER implemented a PeopleSoft solution and created innovative modifications with a Federal Aid Billing Solution for all federal grants, earning CIBER the prestigious Oracle® North America Titan Award for PeopleSoft Enterprise Solutions.
